

## South Florida Free divers Needs your Support

\*\*\*\*\*

The **South Florida Free divers club** is a non-profit club which is based in Miami that brings together people who are interested in free diving and recreational spear fishing.

Our club seeks your support on a very important matter that affects us, the hook and line, the spear fishing and the diving community of South Florida. **The National Park Service**, U.S. Department of the Interior (NPS) is developing a new fisheries management plan to ban spear fishing and other activities inside South Florida's Biscayne National Park.

For more information about the club, please visit our website at

<http://www.southfloridafreedivers.com/1.html>

Our club is very much in favor of protecting and preserving the natural resources and the marine life contained in the park's waters but we feel that the plan has been discriminatory and unfair towards the sport of spear fishing in particular.

Please visit the comments page of the NPS and help us by **selecting option one** of the five alternatives under review
