

RRP \$549(1.1-1.7m)

Xen Trophy handle

- Offers the same features as the Pelaj Xen handle PLUS:
- cutting edge design - short listed for 2007 Australian Design Awards (http://www.designawards.com.au/application_detail.jsp?status=3&applicationID=747);
- Australian registered design (#13743);
- ultra comfortable, fully ambidextrous (use left or right handed) ergonomic Santaprene grip features palm ball allowing very efficient X/Y axis movements;
- large high visibility loading pad;
- 316 SS line release.

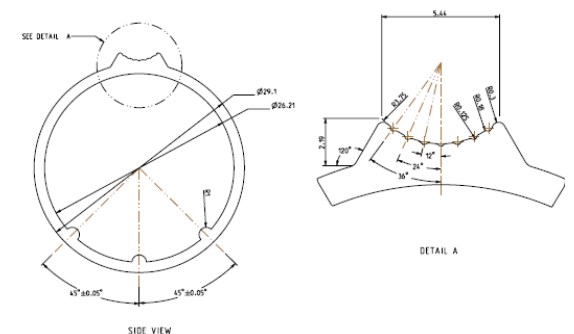

Double Tap muzzle

- Australian registered design (#13742);
- fits 2 clip in Powerbands which can easily be fitted or removed without tying;
- muzzle design aligns Powerbands perfectly parallel to spear travel ensuring optimum power transfer to spear resulting in faster, harder hitting, more accurate shots;
- retro fits any 28mm barrel;
- floating 316 SS pins for easy fitting/dismantling and ships with 316SS floating fastener;
- integrated bungee anchor/reel line eye;
- symmetrical line grooves and wings;
- interlocking grooves for perfect alignment with Pelaj railgun barrels;
- extra large spear hole and twin channel spear grooves accommodate spears from 6mm - 10mm;
- moulded from PA66 glass filled nylon;
- simply the best double rubber muzzle on the market.

Rhino Speed Rail barrel

- Hoocam anodizing for the ultimate Bluewater camo;
- Barrel features patented (#100717) internal structural Rhino ribs which substantially increase rigidity, virtually eliminate barrel flex and ensure optimum energy transfer allowing multiple shorter rubbers;
- Rail features patented longitudinal speed striations which reduce noise/pressure wave amplitude, reduce metal to metal contact and increases hydroplaning effect reducing friction and vibration thus increasing velocity;
- **guaranteed to be the fastest strongest 28mm aluminum barrel on the market today;**
- 28mm internal diameter;
- Extra wide spear groove minimizes the likelihood of spears falling out;
- Extruded from 6063 grade aerospace alloy barrel - the strongest, lightest alloy available;
- Available in 10cm increments from 1.1 - 1.7m - ships with 316SS floating fastener;
- Assembles with all Pelaj muzzles and handles;
- **does not fit any other Euro mechanism.**

Orca clip with swivel on
polypropylene webbing
